Information Sites

Family Support Network: www.med.unc.edu/commedu/familysu/

Listserv library: www.liszt.com/

This provides a list of many available listservs (mail lists) on a variety of topics. Several topics of interest to us are Down Syndrome, ADD, chronic illness, single parents, autism, tourettes, brain injuries, craniofacial disorders, cerebral palsy.

New Visions: www.new-vis.com

"Provides continuing education and therapy services to professionals and parents working with infants and children with feeding, swallowing, oral motor and pre-speech problems". Has some nice articles on sensory and motor issues related to feeding.

Children's Motility Disorder Foundation: www.motility.org

Provides information for parents & families on reflux, medications, fundoplication- also has a bulletin board for questions & answers.

Kids Health: www.kidshealth.org

Lots of information on almost anything you might want to know from behavior, infections, support groups, research, nutrition & safety.

Dr. Greene's House Calls: www.drgreene.com

"Pediatric Wisdom for the information age". Ask him anything!

Gastrostomy Support: www.g-tube.com

Genetic Conditions: www.hitchcock.org/pages/cgcd/medgen/alpha.html

Different genetic conditions defined.

Pediatric/Adolescent Gastroesophageal Reflux Association (PAGER):

A non-profit organization that provides information and support to parents, patient and doctors. Has a nice discussion area, and information about local chapters or how to start a local chapter.

Support Groups

Mothers of Multiples

Down Syndrome

Single Parents

Parent Resource Group at Carolina Pediatric Dysphagia. If you haven't been to a meeting, we hope to see you at the next one!
